

INNOVATIVE FEATURES

Cleaner Water With High Efficiency Outdoor Water Filter

5 Micron Pleated Filter Cartridge Technology

The JOVEN JWP20 is a highly efficient Point-Of-Entry (POE) outdoor filter which comes with a 2-Layer 5 Micron Pleated Filter Cartridge technology which efficiently removes the harmful components from incoming water supply such as Dirt and Sediment.

Long-Life Pleated Filter Cartridge

2-Layer 5 Micron Pleated Filter Cartridge

2-Layer 5 Micron Pleated Filter Cartridge ensures low pressure drop and high filtration area thus, ensuring higher efficiency and longer durability.

Cleaner and Healthier Water For Your Family

Filtering your incoming water from the mains will remove Dirt and Sediment resulting in cleaner water for your household chores such as general washing and cleaning.

Stainless Steel Housing

Ergonomic design that can withstand harsh outdoor conditions for better durability and rust free body and water.

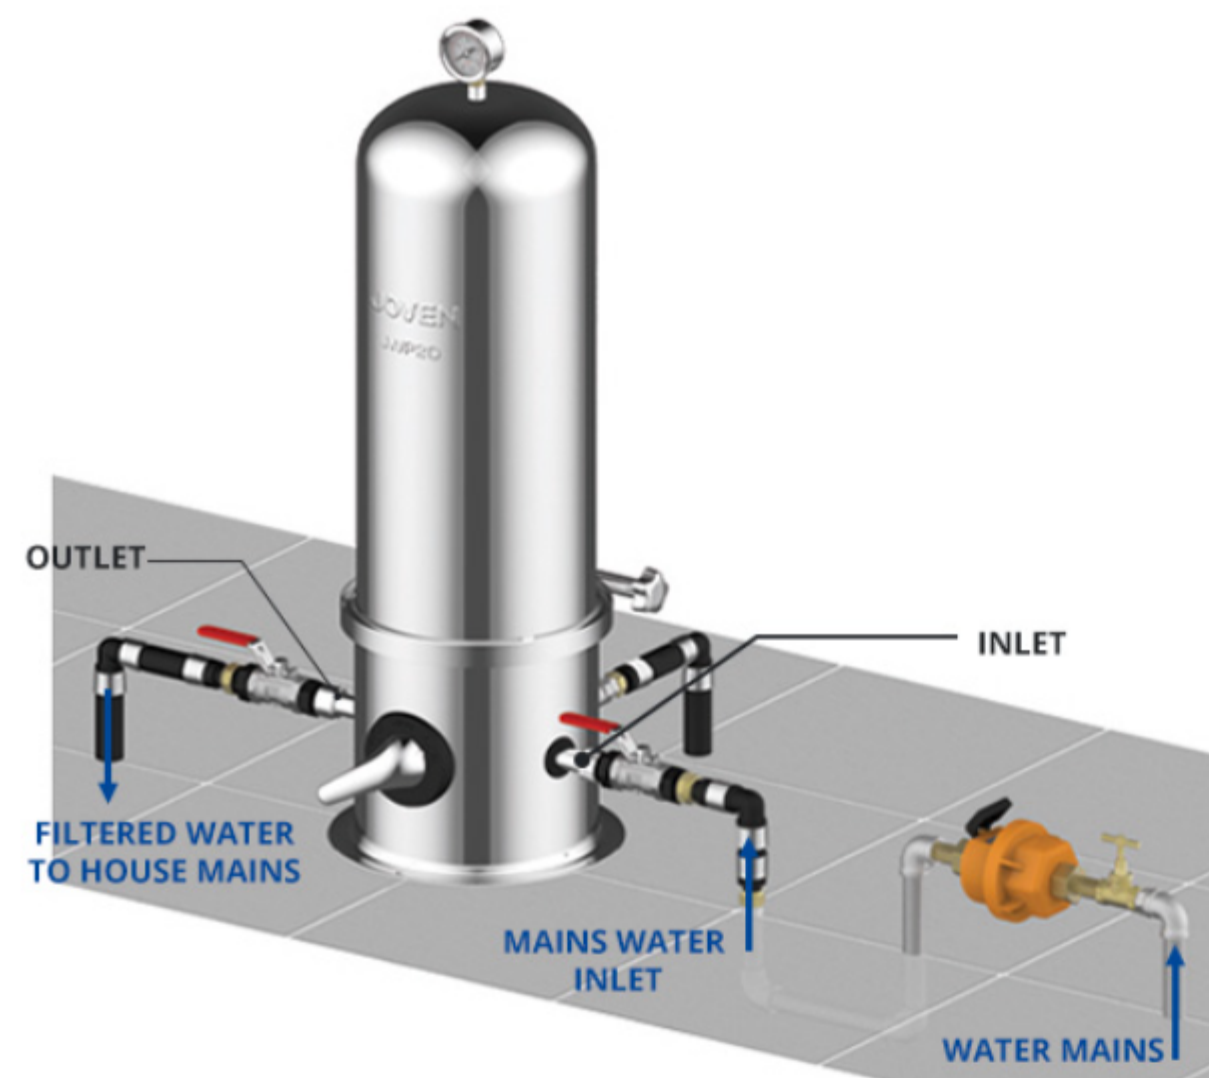

Easy Selection Mode & Backwash System For Periodic Cleaning

3 function multi-valve lever enables you to select between 'Filter' and backwash mode of 'Wash' or 'Rinse' for periodic cleaning.

Easy Installation

Just connect the Inlet and Outlet pipes to filter your incoming water from outdoor mains water system.

SAFETY FEATURES

NSF Certified Cartridge Material

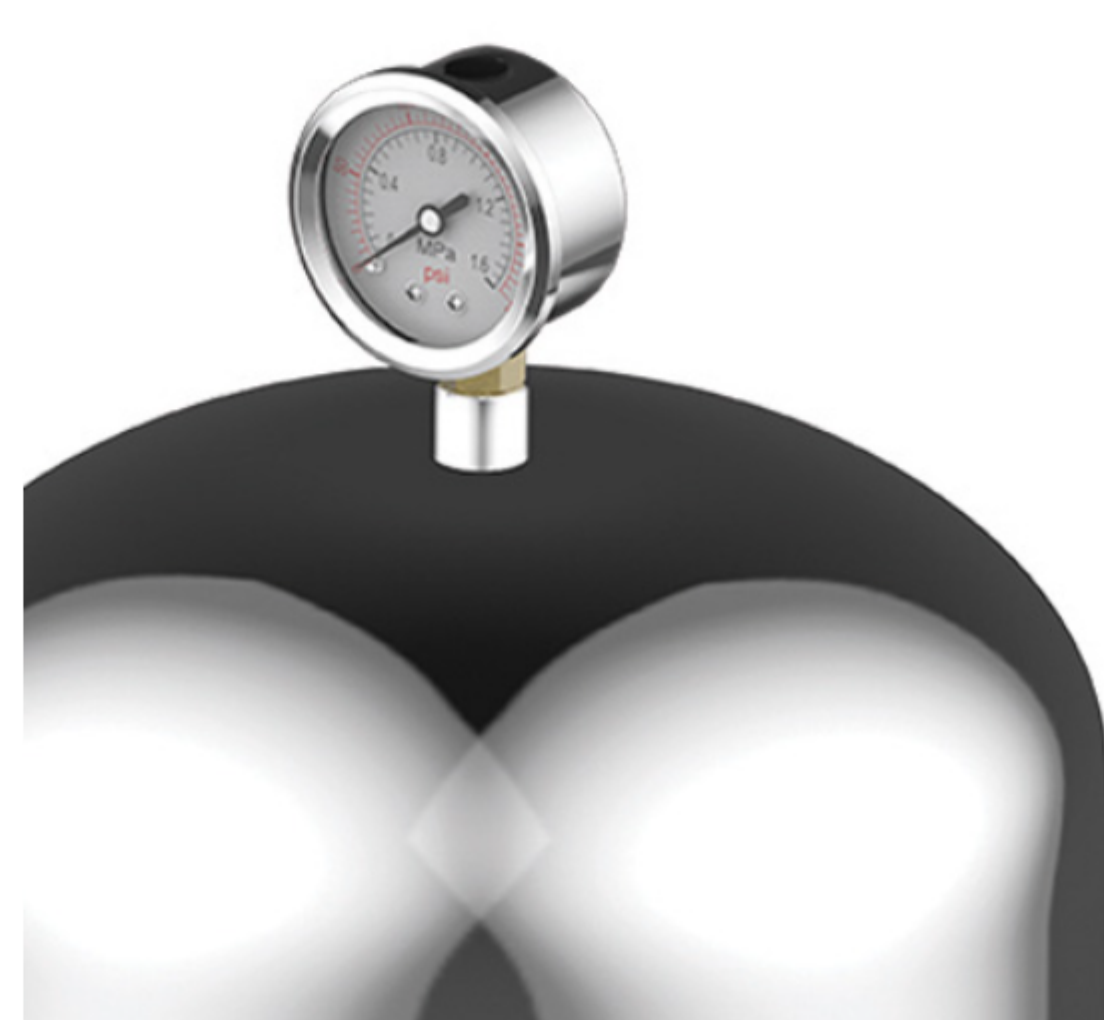

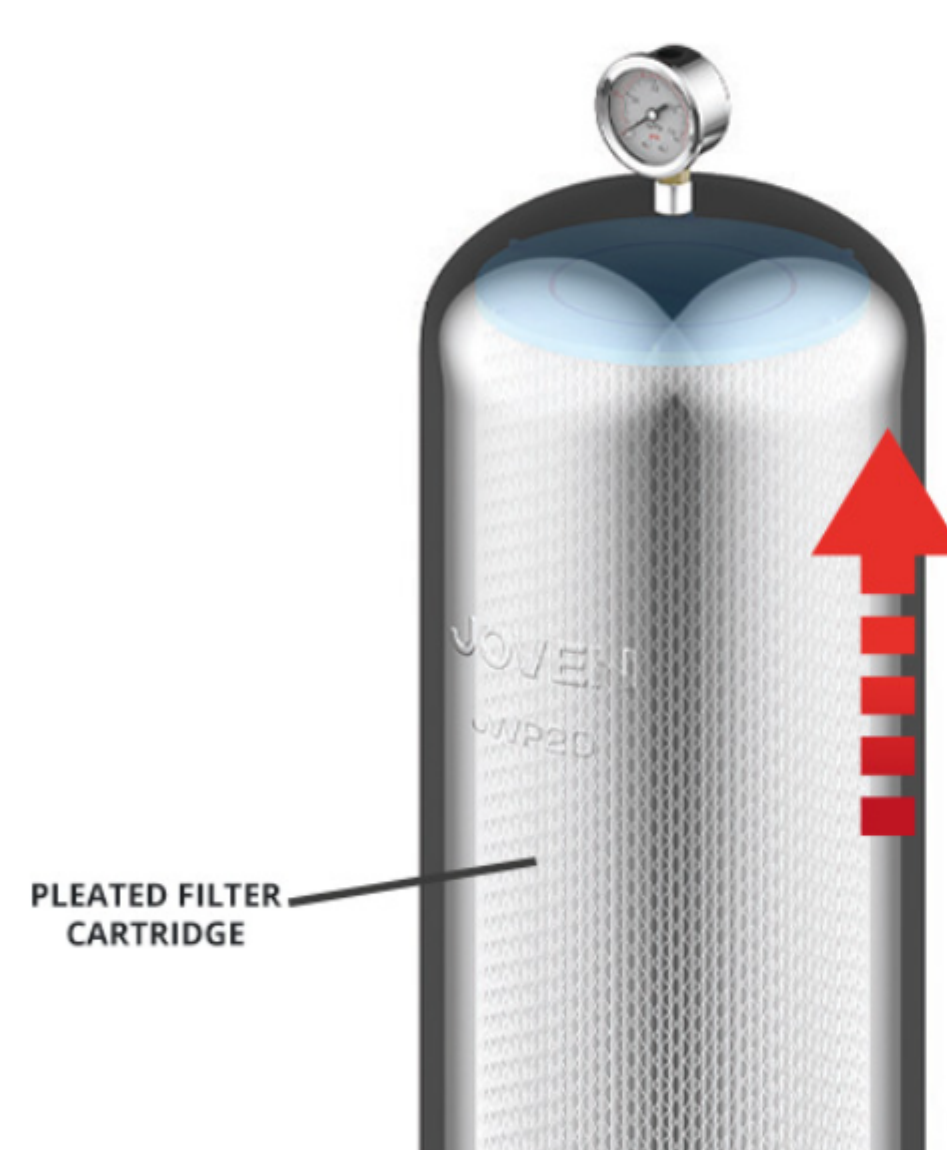

High quality 2-Layer 5 Micron pleated fabric that complies to food and sanitisation safety standards (NSF). Filter cartridge is required to be replaced periodically when water flow or taste is unsatisfactory.

ACCESSORIES
